Own Product

We were asked to produce two compact counter units for a high profile cancer charity.

One being the [Roll-a-coin Unit](#) and the other being a [Small Collection Box](#).

The [Roll-a-coin Unit](#) is a static collection unit designed for Counters in Pubs, Clubs, Shops, Banks, Offices and Receptions. The "Roll-a-Coin Unit" is a very productive fundraiser for Charities and will work day and night at all of your chosen Sites.

The [Small Collection Box](#) is compact in size and will normally surpass its cost value in a matter of days, allowing your charity to benefit very quickly. It can be located on counter tops at point of sale areas without invading the retailer/ bank/ club or pub's sales space.

We designed and manufactured the tooling and produced the finished article.

Roll-a-coin Unit

Collection Box
